SUMMARY

Full-Stack DevOps Engineer with 2.5+ years of experience building scalable web applications and modern DevOps infrastructure. Strong expertise in **Node.js**, **React**, **TypeScript**, **Docker**, **CI/CD** and cloud platforms (AWS EC2, Digital Ocean). Currently delivering high-throughput microservices using **Kafka**, **RabbitMQ**, **Redis**, **Prometheus** & **Grafana**. Built and shipped a complete Blog writing platform from scratch. Passionate about clean architecture, performance optimisation and automation.

EXPERIENCE

Full-Stack DevOps Engineer

Jul 2024 – Present

Entegation Technologies LLC – Allen, Texas, USA (Fully Remote)

- Designed and maintained microservices in **Node.js** handling millions of daily events via RabbitMQ – improved throughput by 25%.
- Built and owned full **CI/CD pipelines** using GitHub Actions, Docker, Docker Swarm and Traefik – reduced deployment time from hours to under 10 minutes.
- Implemented **Redis** caching and query optimisation in MySQL – reduced API latency by 35–40%.
- Set up complete observability stack (**Prometheus** + **Grafana** + **Glances** + **Loki**) achieving 99.99% uptime.

Software Developer

Mar 2023 – Apr 2024

Cross Roads – India

- Built a full-featured **e-commerce platform** from scratch using **React**, **Node.js**, **Express**, **Mongodb** and **Tailwind CSS**.
- Implemented user authentication, product catalogue, cart, checkout, order tracking and admin dashboard with role-based permissions.
- Containerised the application with **Docker** and orchestrated using **Docker Swarm**; introduced GitHub Actions for CI/CD.
- Improved Lighthouse performance score from 62 to 94 through code splitting, lazy loading and image optimisation.

PROJECTS

MyCarePedia – Healthcare Booking Platform | uat.mycarepedia.com

- Developed patient portal for searching & booking doctors by location, specialty, insurance and ratings using **React**, **Node.js**, **MySQL**.
- Built doctor dashboard for profile management, appointment scheduling and patient communication.

Drag-and-Drop Email Template Builder | *React.js, Node.js, RabbitMQ, Redis*

- Visual editor for creating reusable email templates with live preview and bulk sending via **RabbitMQ** queues.
- Campaign analytics dashboard with open/click tracking powered by Redis + Grafana.

API Rate Limiter & Analytics Service | *Node.js*

- Distributed Api Hitting service (Time Based) with real-time metrics exported to Grafana.

SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, Node.js, Java , Spring Boot, PHP, Next.js, Express.js

Styling: Tailwind CSS, Bootstrap, CSS Modules

Databases: MySQL, MongoDB, Redis

DevOps & Cloud: Docker, Docker Swarm, GitHub Actions, CI/CD, Nginx, Traefik, AWS EC2, Digital Ocean

Message Brokers & Monitoring: Kafka, RabbitMQ, Prometheus, Grafana, Glances

Tools: Git/GitHub, Postman, VS Code, Linux

EDUCATION

Master of Commerce (M.Com)

2017 – 2019

Manonmaniam Sundaranar University, India

Bachelor of Commerce (B.Com)

2012 – 2015

Manonmaniam Sundaranar University, India
