SUMMARY

Full-Stack DevOps Engineer with 2.5+ years of experience building scalable web applications and modern DevOps infrastructure. Strong expertise in Node.js, React, TypeScript, Docker, CI/CD and cloud platforms (AWS EC2, Digital Ocean). Experience with Python, OpenCV, and integrating local LLM models via Ollama into production systems. Currently delivering high-throughput microservices using Kafka, RabbitMQ, Redis, Prometheus & Grafana.

EXPERIENCE

Full-Stack DevOps Engineer

Entegation Technologies LLC - Allen, Texas, USA (Fully Remote) Jul 2024 - Present

- Designed and maintained microservices in Node.js handling millions of daily events via RabbitMQ - improved throughput by 25%.
- Built and owned full CI/CD pipelines using GitHub Actions, Docker, Docker Swarm and Traefik - reduced deployment time to under 10 minutes.
- Implemented Redis caching and query optimisation in MySQL - reduced API latency by 35-40%.
- Set up complete observability stack (Prometheus + Grafana + Glances + Loki) achieving 99.99% uptime.
- Integrated local LLM models using Ollama for AI-powered features within production systems.

Software Developer

Cross Roads - India Mar 2023 - Apr 2024

- Built a full-featured e-commerce platform from scratch using React, Node.js, Express, MongoDB and Tailwind CSS.
- Implemented user authentication, product catalogue, cart, checkout, order tracking and admin dashboard.
- Containerised with Docker and Docker Swarm; introduced GitHub Actions for CI/CD.
- Improved Lighthouse performance score from 62 to 94 through code splitting, lazy loading and image optimisation.

PROJECTS

MyCarePedia - Healthcare Booking Platform (uat.mycarepedia.com)

- Developed patient portal for searching and booking doctors using React, Node.js, MySQL.
- Built doctor dashboard for profile management, appointment scheduling and patient communication.

Drag-and-Drop Email Template Builder (React.js, Node.js, RabbitMQ, Redis)

- Visual editor for reusable email templates with live preview and bulk sending via RabbitMQ.
- Campaign analytics dashboard with open/click tracking powered by Redis + Grafana.

API Rate Limiter & Analytics Service (Node.js)

- Distributed API hitting service with real-time metrics exported to Grafana.

SKILLS

- Languages & Frameworks: JavaScript (ES6+), TypeScript, Python, Node.js, Java, Spring Boot, PHP, Next.js, Express.js, React
- AI & Computer Vision: OpenCV, Ollama (Local LLM Integration), Model Deployment
- Styling: Tailwind CSS, Bootstrap, CSS Modules
- Databases: MySQL, MongoDB, Redis

- DevOps & Cloud: Docker, Docker Swarm, GitHub Actions, CI/CD, Nginx, Traefik, AWS EC2, Digital Ocean
- Message Brokers & Monitoring: Kafka, RabbitMQ, Prometheus, Grafana, Glances, Loki
- Tools: Git/GitHub, Postman, VS Code, Linux

EDUCATION

Master of Commerce (M.Com) - Manonmaniam Sundaranar University, India (2017-2019)

Bachelor of Commerce (B.Com) - Manonmaniam Sundaranar University, India (2012-2015)
